

# Your dream a baby Our reward a Valentine's Day miracle

*This Valentine's Day, Lachlan, a gorgeous red haired bundle of joy, will celebrate his 2<sup>nd</sup> birthday. Why is this so special? Lachlan is Fertility Solutions first success story, born exactly one year after we commenced business at our Nambour Clinic in 2007.*

Lachlan's mother had previously suffered a life threatening ectopic pregnancy and surgery, so she and her husband were ecstatic when their first embryo transfer was successful.

Our specialist fertility team understands the emotional and physical challenges couples may experience when going through fertility treatment and offers support and optimism through even the most difficult times.

We are a team of truly caring professionals who always treat our patients with **respect and sensitivity**. We also work with local complementary therapists to bring a **holistic approach** to your treatment **maximising your chance** of a healthy pregnancy and baby.

Contact us for a **FREE one hour Fertility Assessment Consultation** and perhaps we will be helping you celebrate the birth of **your own little miracle** next Valentine's Day.

**Patient appointments now available in: Nambour - Noosa - Kawana - Bundaberg**

*Sharing your journey for life*
