

Your Trusted and Respected Fertility Clinic

Offering Access to Bulk Billed* IVF and FET Cycles

FREE CONSULTATION

Call us today to arrange a free consultation with a **Fertility Nurse** via skype, phone or face to face. It takes on average, 2-3 months before a patient starts their first treatment so don't delay your decision to discuss any fertility concerns.

No obligation **FREE CONSULTATION** to begin your journey for new life.

sharing your journey for life

BOUTIQUE CLINIC

More Personalised Care

Fertility Solutions was established in 2007 and is privately owned and operated. Our mission is to offer our patients access to high quality, innovative fertility treatments at one convenient center.

Fertility Solutions prides itself on being a unique, boutique best practice clinic providing the highest quality tailored services and care - we aim to not just meet but to exceed our patient's needs.

FLEXIBLE APPOINTMENT TIMES

(7am appointments most days, limited availability)

COSTS

Many factors can influence the cost of fertility treatment. It is important for patients to have a comprehensive consultation with a specialist who will then determine a treatment plan based on individual needs. It is only then that a cost estimate can be given. Refer to our cost guide on our website for further guidelines.

NO FREEZE – NO FEE

- If embryos are not considered suitable for freezing we do not charge our patients the cost of culturing
- To keep your costs affordable we keep our freeze fees to a minimum

WHY FERTILITY SOLUTIONS IS YOUR BEST CHOICE

Access to Bulk Billed* IVF and FET cycles

Comprehensive Range of Fertility Treatments

Choice of 4 IVF & 3 FET Treatment Options

Choice of Being Awake or Asleep During Procedures

Boutique Clinic with Personalised Care

We offer Minimal Stimulation IVF and Natural Frozen Embryo Transfers

Unique tiered approach to fertility treatment

CONTINUOUS CYCLE MONITORING

We provide continuous, comprehensive monitoring before, during and after your cycle to maximise the chance of a successful outcome.

BULK BILLED* IVF AND FET TREATMENTS

Fertility Solutions offers access to Bulk Billed* treatments on a permanent basis. Whilst the cycles are bulk billed there will still be out of pocket expenses.

To be eligible you must have:

- Access to full Medicare Rebates
- A consultation with a specialist to determine your suitability
- Patients with embryos stored at other clinics can transfer to access our Frozen Embryo Transfers (FET) Bulk Billed* services (*conditions may apply*)

Patients **not eligible** for Bulk Billed* Treatments:

- Using donor sperm, eggs or embryos
- Using sperm that has been surgically collected (fresh/frozen)
- Patients requiring complex laboratory procedures *i.e. assisted hatching*

We really care about you and your partner, you are not just another number to us

AWAKE OR ASLEEP

Fertility Solutions offer patients the choice of being awake (in the clinic) or asleep (in the hospital) during egg collection. If you need a surgical sperm collection you can also choose to have this procedure in the clinic or hospital.

UNIQUE TREATMENT OPTIONS*

Our patients have more choices than ever;

BULK BILLED* IVF AND FET CYCLES

- IVF cycles with embryo transfer day 2-3 (Cleavage Stage)
- FET cycles with embryo transfer at day 5-6 (Blastocyst Stage)

STANDARD IVF CYCLES

- Flexibility with choice of medications and approaches to treatment
- Embryo transfer day 2-3 (Cleavage Stage)

INTERMEDIATE IVF AND FET TREATMENTS

- Flexibility with medication doses and approaches to treatment
- Embryo transfer day 5-6 (Blastocyst Stage)

CUSTOMISED IVF

- Your doctor performs your scans, egg collection and embryo transfer
- Options of donor and more complex procedures

**Note: Your doctor will discuss with you which option is suitable to your situation. For more information on what the various treatment options offer go to fertilitysolutions.com.au/treatment-options/.*

SUCCESS RATES

Patients should feel completely confident in our professional team and success rates.

Our care and science is based on industry best practice and standards.
