

Fertility Solutions offers a full range of treatments. The tables below will assist you in understanding the differences between each level, including the extras available.

Whilst the science behind the treatment is the same, there are some differences with what is included in each treatment level.

Your Specialist will discuss which treatment option is most suitable for your circumstance. Together with your Specialist, we will manage and guide you through the process.

## What to Expect from My FET Cycle?

### Bulk Billed\* FET

#### INCLUDED:

- Programmed medicated cycle only
- Scans with a nurse
